

Dear Students and Parents,

Last night we launched our exciting, educational Borneo trip for the Summer of 2021. Thank you to everyone who came!

Please find attached electronic copies of the Borneo Programme, Swim Declaration Form, Application Form and Insurance Policy that were handed out.

For those who are interested but couldn't come last night, this trip offers a real adventure, while enhancing students' learning in: Geography, Science, World Religions, Economics, and Travel and Tourism. All students automatically gain the widely-recognised **ASDAN Universities Award**, which will look excellent on UCAS Personal Statements.

Borneo, the most bio-diverse country in the world is the perfect destination for **life-changing educational experiences**, environmental issues and adventure! Students will see the amazing views of Mount Kinabalu and explore the tropical Borneo Rainforest, an area of vital importance to inhabitants including many endemic species, from canopy walks and towers. Alongside various environmental organisations, students will also participate in environmental projects focusing around sustainability and reforestation of the wildlife corridor in the Kinabatangan region.

You will also see conservation efforts first-hand: visiting the inspirational Sepilok Orangutan Rehabilitation Centre. Here you will learn about the threats to Orangutans and the efforts being made to try and conserve these critically endangered primates before returning them back to the wild. You will also visit the neighbouring Bornean Sun Bear Conservation Centre to understand why the world's smallest bear is under threat from deforestation.
