16th June 2021

Dear Parent/Carer

The Dean Academy has asked our organisation to provide workshops for the whole school as part of their Wellbeing and Safeguarding day in 24th June 2021. We are a safeguarding youth organisation called Fearless.

As a nationally recognised youth support organisation we recognise the mental and physical impact that the last year has brought to our young community and as such we are dedicated to providing two fundamental services. The first is an education and awareness on the latest risks and preventative strategies that young people should be aware of in order to stay safe and happy as they grow. The second which is unique is the 100% guaranteed anonymous reporting service, should they ever have any safeguarding concerns.

As such your child has been selected to receive this awareness training with the goal of improving their physical and mental wellbeing and resilience in the circumstances they may encounter as they grow and engage with society.

They will be facilitated by a qualified ex-police officer and youth engagement professional who holds an enhanced DBS clearance with school staff in attendance. The workshop will feature three topics which are: Online Safety, County Lines and Prevention of knife crime.

These subjects have been selected as they are the most current and relevant issues that have been identified which require addressing in Gloucestershire.

For more information, please see link below for the website for more information;
