

Dear Parents/ Carers,

As you may be aware, the examining body, City & Guilds, that facilitate the level 2 Hair & Beauty course that your child is currently studying, have released the details surrounding the synoptic, non-examined element of the course. This is worth 60% of the total course and is broken down in to 3 components:

1. A powerpoint with annotate images and bibliography. (6 hours)
2. Practical of hair, make up and nail designs. (3 hours)
3. Plan, Design and evaluation of a website. (4 hours)

We have managed to secure an industry expert to support with the practical component to give students the very best chance to be succeeding. The expert and class teacher will be running this practical session on **Thursday 15th February** (during half term) to enable students to bring in a free choice of model and to minimise disruption to their other subject areas. Students and their model will need to come in to school for either a morning session or an afternoon session. Your child will be in the morning session.

Please may we ask, in preparation for this that all students select a model who can attend on that day (aged under 18) and provide contact details for them. The preceding lessons are vital for students as it will be when they are planning their practical, therefore attendance over the next 2 weeks is crucial.

We appreciate and understand that some families may already have made plans for the half term break, so if your child is unable to attend on the designated date please do let us know and we will make an alternative arrangement for the few students that this may apply to, ensuring that they will not be disadvantaged.

Please complete the attendance slip below and return to:
Ms. Muirhead by **Wednesday 7th February**.

Yours sincerely,

Andrew Winstanley
Director of Faculty
