Hannah Rowlands: Headteacher

Monday 22nd June 2026

Dear Parents / carers

At the prom on the 25th of June, we have been given the opportunity to trial a system for free that is usually used at weddings called Event Screen. This allows the pupils to upload and display the pictures from a mobile phone or tablet to a large photo slideshow screen. It is quick, simple and easy to use as there is no need to install any extra apps.

We will have a large 65" screen in a visible place in the room. The pupils will simply switch on their Wi-Fi and using a QR code, connect to the secure, internal Wi-Fi network. They then click another QR code to open an internet browser. This will bring up a web page where they press a button and select an existing photo or take a photo real time. They click OK and within a few seconds it will appear on the large screen.

At the end of the night the school will get a USB memory stick with all the selfies on to keep as well as the prints. In addition, the pupils can view all photo's that are appearing on the screen on their own phones / tablets and download them to their devices. After the prom we will share a link with parents / carers so you can also view the photos. This link will be password protected.

Information on the system can be found at www.bluesignage.co.uk/wedding-screen

As a school we will then only use photos of pupils we have permission for as per our GDPR policy.

If you have any concerns or questions about this, please contact me at school

fprice@thedeanacademy.org

Yours sincerely

Fiona Price
